

Are you looking to maintain your cholesterol?

Cholestin™

Promotes healthy cholesterol levels.

Cholestin utilises a scientifically standardised strain of red yeast rice. This traditional Chinese health food promotes healthy cholesterol levels and is a proprietary product unique to Pharmanex.

The enhancing qualities of this yeast have been known and used in China for over 2000 years. The ancient Chinese pharmacopoeia, Ben Cao Gan Mu, records the use of this yeast to promote the health of the cardiovascular system.

The effect of Cholestin is partially attributed to the presence of HMG-CoA reductase inhibitors.

Key benefits

- A food supplement for healthy adult men and postmenopausal women concerned about maintaining a healthy diet.
- Promotes healthy cholesterol levels.
- Can help in cholesterol lowering programmes.
- Compliments diet and exercise.
- 100% natural.
